## Enriched French Program Information Sheet 2014-2015

| Instruction in French: | Instruction in English: |
|------------------------|-------------------------|
| Francais               | English                 |
| Sciences               | Mathematics             |

| Ethique                | Arts                    |
| Histoire               |                         |

Placement in the French Enriched program will be based on the date by which the form is received at Hadley after **March 17<sup>th</sup>, 2014**, in conjunction with the criteria below and the recommendation by the student's French teacher. **It is the responsibility of the parents to return the form to Hadley.** You will be contacted in June as to the status of your child's placement.

The following criteria are strongly recommended in order for a student to be successful in Enriched French:

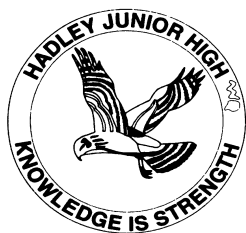

- A proficiency in French (minimum of 70%) and English Language Arts
- Meeting expectations of competency levels in all subjects
- Effective work and study habits
- Cooperative classroom behaviour
- Independent learner

The expectation is that students in Enriched French will be required to communicate in French at school during their French instruction, and spend approximately 1 hour each night developing their French skills (listening to French radio, reading and writing activities in French). The Enriched French course at Hadley is a rigorous program much like that in the French schools. Students should expect a faster pace in class and increased homework load. This is not an immersion program suited to those seeking remediation in French.

Please contact me if you have any questions.
